

September 28, 2021

As International President and Presidents of the thirteen IATSE Locals in the Hollywood Bargaining Unit, we each have witnessed first-hand the physical and emotional suffering our members and their loved ones endure as a result of punishing and unrealistic schedules, and lack of rest or meal breaks. We have repeatedly seen the economic impact of inadequate rates for members who do not make a living wage, and the discounted “New Media” pay rates that subsidize mature and profitable streaming businesses.

Now is the time to change the culture of our work places. We fully support our members who demand safe and sane working conditions, equitable wages and sustainable Health and Pension benefits.

Our responsibility to our members and generations to follow is to correct these untenable conditions. We endorse a ‘YES’ vote for the strike authorization that will empower our negotiators to secure a fair deal, knowing they can rely upon our strength and our unity, our trust in one another and our shared belief in a better future.

In Solidarity,

Matthew D. Loeb
International President,
IATSE

Julian Arnold
President, Local 695

Dominick Cetani
President, Local 729

Nelson Coates
President, Local 800

Monique Hernandez-Fisher
President, Local 884

Ariel Goodman Weston
President, Local 705

Alan Heim
President, Local 700
